# NUMERA HOME SAFETY HUB

## PERS 4200X & ACCESSORIES – BLENDING PERSONAL AND HOME SAFETY

**Key Features:**

- **Connectivity Hub:** connects wirelessly with 2GIG home sensors, and personal emergency & fall detection wearables
- **Connected Care:** delivers user and environmental data to a user's family and care team
- **Upgradable Firmware:** keeps product fleet current
- **Configurable:** customize night-time do-not-disturb and personalized activity windows

## Total Aging-in-Place Solution All-in-One

The Numera Numera PERS-4200X console brings forth a new, scalable next generation Personal Emergency Reporting System. Numera from Nortek Security & Control, leveraging its Linear PERS legacy and integrating with 2GIG home control sensors, has developed a smart home personal security and safety ecosystem with options to suit any customer who is looking for the best tools for independent living.

The hub combines information from sensing devices like CO and smoke detectors, motion and door-window sensors. Includes alerts from wireless personal emergency sensors and wearables in a single PERS console for seniors or others needing support while living alone.

With complementary lightweight wearables and an upgradeable ecosystem, the Numera Home Safety Hub suite of products ensures a safer and more protected home. With the included Personal Help Button Pendant, assistance is just a discreet button push away, and with automatic alerts of a potential fire or a fall in the home via 2GIG home sensors, help is summoned even when the user cannot react.

**#1 US Provider of Personal Emergency Response Solutions to Direct Dealers**
